TEACHERS ASSOCIATION.

THIS BIBLIOGRAPHY IS A CONTINUATION OF THE SERIES OF BIBLIOGRAPHIES OF COURSES OF STUDY AND TEXTBOOKS IN SCIENCE BEGUN IN 1959 BY THE NATIONAL SCIENCE TEACHERS ASSOCIATION (NSTA). PART 1 LISTS COURSES OF STUDY ALPHABETICALLY BY STATE UNDER THE CATEGORIES OF (1) LONG-RANGE COURSES OF STUDY, GRADES K-12, (2) JUNIOR HIGH SCHOOL, GRADES 7, 8, 9, (3) BIOLOGICAL SCIENCES, GRADES 9-12, (4) PHYSICAL SCIENCES, .GRADES 9-12, (5) EARTH AND SPACE SCIENCE, GRADES 7-12, AND (6) MISCELLANEOUS. INCLUDED FOR EACH COURSE OF STUDY ARE (1) STATE, (2) TITLE, (3) GRADE LEVEL, (4) DATE, (5) COST, AND (6) SOURCE. THE COURSES OF STUDY LISTED ARE THOSE REPORTED AS BEING AVAILABLE FOR CIRCULATION BEYOND THE SCHOOL DISTRICT OR SYSTEM FOR WHICH THEY WERE PREPARED. PART 2 LISTS TEXTBOOKS, LABORATORY MANUALS, PROGRAMED UNITS, TEACHER REFERENCE MATERIAL, AND BOOKS OF EXPERIMENTS. INCLUDED FOR EACH REFERENCE ARE (1) AUTHOR, (2) PUBLISHER, (3) TITLE, (4) DATE, (5) PRICE, AND (6) GRADE. ALL MATERIAL INCLUDED WAS PUBLISHED AFTER 1962. THE INFORMATION WAS CURRENT AS OF NOVEMBER, 1967. PART 3 CONTAINS PUBLICATIONS PREFARED BY SCIENCE COURSE IMPROVEMENT PROJECTS. THESE ARE CATEGORIZED AS (1) JUNIOR HIGH SCHOOL, GRADES 7-9, (2) SUBJECT MATTER PROJECTS, GRADES 9-12, AND (3) MISCELLANEOUS. APPENDED ARE THE (1) ADDRESSES OF THE PUBLISHERS, AND (2) TEXTBOOKS IN PRESS OR PUBLISHED SINCE NOVEMBER, 1967. THIS DOCUMENT IS ALSO AVAILABLE FOR \$1.00 FROM THE NATIONAL EDUCATION ASSOCIATION, PUBLICATIONS SALES, 1201 SIXTEENTH STREET, N.W., WASHINGTON, D.C. 20036. (DS)

FOREWORD

This bibliography continues the series of bibliographies of courses of study and textbooks in science begun in 1959 by the National Science Teachers Association. In two separate publications, courses of study and textbooks are listed for grades K-9 and grades 7-12, respectively. Because grades 7-9 are a separate division in some school systems or included with either the elementary grades or the secondary grades in other systems, items at this level are included in both publications.

The courses of study listed are those that were reported as being available for circulation beyond the school district or system in which they were prepared. Information was requested from all members of the National Science Supervisors Association (a section of NSTA), from all state departments of education, and from school systems listed in the previous edition of the bibliography.

For the book entries, inquiries (and follow-up reminders if necessary) were sent to all publishers represented in the last edition of the bibliography, to all who advertise in The Science Teacher, and to all who are listed in Literary Market Place as having textbooks or programed instructional materials. Inquiries were also sent to all science curriculum projects listed in the International Clearinghouse Report 1967, published by the Science Teaching Center at the University of Maryland and the American Association for the Advancement of Science.

The books listed have been limited to textbooks, laboratory manuals, teacher reference material, books of experiments, and the publications of curriculum projects. Tests, answer sheets, and certain other supplementary materials are available in most cases, but they were not included since this is basically a listing of books. Enrichment reading was not requested, though the difficulty of drawing a sharp line between a textbook and supplementary materials is becoming increasingly acute.

For all of the entries -- both courses of study and textbooks -- the request specified material published after 1962. The information was current as of November 1967. The most recent editions in print as of November 1967 are listed. We have tried to include every item where applicable, and regret if there are any which have not come to our attention.

For further information about any of the entries, write directly to the address of the publisher, school, or other source given. (Addresses of textbook publishers are given in the Appendix.) Many courses of study and textbooks are on display at the national convention of the National Science Teachers Association, and many publishers have booths at the regional NSTA meetings so that teachers may inspect and discuss their latest offerings. The book review pages in The Science Teacher and in Science and Children and the reviews in Science Books-- a Quarterly Review, published by the American Association for the Advancement of Science, also offer current information on new publications in science.
